Kobe Robocare Center opens

CYBERDYNE, INC. 【Tsukuba, Ibaraki, CEO: Yoshiyuki Sankai (the “Company”)】 in coordination with Specific Non-profit Juridical Person Eijyu and the Company’s subsidiary Suzuka Robocare Center Co., Ltd. Announced to open Kobe Robocare Center on October 1, 2019 in Kobe City, Hyogo prefecture.

Kobe Robocare Center will be established within Kimec Center Building, which is located in the central part of Port Island where international research institute on advanced medical technology, medical institutes and companies related to medical fields are accumulated. Similar to other Robocare Centers, Kobe Robocare Center offers the Neuro HALFIT service to visitors with a reduced physical functions or visitors with disability, targeting to induce improvement in the function of the brain-nerve systems. This service utilizes the unique feature of the Wearable Cyborg HAL System, inducing improvement of those who experiences difficulty standing, sitting and walking.

Kobe Robocare Center will become the 13th Robocare Center to offer this advanced training program, following facilities like Okayama Robocare Center (opened May 23), Sendai Robocare Center (opened May 24), Hiroshima Robocare Center (opened May 23), Sendai Robocare Center, Hiroshima Robocare Center (opened July 1), Kitakyushu Robocare Center (opened July 1), Nagoya Robocare Center (opened August 1), Sapporo Robocare Center (opened September 1). For the HAL FIT program offered in the related Robocare Centers, some private insurance contracts*2 and shareholder benefits*3 can be used. Upon using the aforementioned scheme, there are certain conditions, which would be applied, so please check the appendix for the details.

The Company will continue to expand its business in order to improve access by the potential visitors. Through this endeavor the Company hopes to make contribution in the formation of a society where people with disability and elderly could continue to have initiative in their action.
